

DUE WEST SCIENCE FAIR

Have you had a burning question keeping you up at night? Well, now's the time to find the answer to that question! The Due West Science Fair is looking for young, eager scientists willing to do a little experimentation and show us those answers.

Students will be evaluated by a group of independent judges on three criteria:

- **Project** – Was the scientific process (hypothesis, variables, conclusion) followed? It doesn't matter if your hypothesis is proven wrong. It's all in finding if it's right or wrong that counts.
- **Board** – Is your science fair board neat and all the necessary data displayed?
- **Presentation** – Each student should be able to give a brief description of his or her experiment and answer the judges' questions.

Who can participate – Any student K-5

Important Dates:

Feb. 15– Send in the form below.

Mar. 1 – Project judging at Due West (projects due at the school by 7:45am)

Mar. 11 – Tom Mathis Council Regional Competition

Information on potential projects, the scientific process and how to prepare a science fair board can be found at www.duewestpta.com

Yes, I want to enter a project in the Due West Science Fair.

Name _____

Teacher _____ Grade _____

Project _____

Please return to your teacher by February 15, 2010.
